#### **DEFINITION**

- Rank A : Maintenance parts, and consumable parts which are not included in but closely related to maintenance parts
- Rank B: Performance/function parts (sensors, clutches, and other electrical parts), consumable parts
- Rank E: Unit parts including PWB
- Rank D: Preparation parts (External fitting, packing, parts packed together)
  Rank C: Parts other than the above (excluding sub components of PWB)

Because parts marked with "A" is indispensable for the machine safety maintenance and operation, it must be replaced with the parts specific to the product specification.

- O Other than this Parts Guide, please refer to documents Service Manual (including Circuit Diagram) of this model.
- O Please use the 13 digit code described in the right hand corner of front cover of the document, when you place an order.
- O For U.S. only-Use order codes provided in advertising literature. Do not order from parts department.

#### [NOTE]

\* There patrs are supplied by SMF

<Note for use of the revised Parts Guide>

• Interchangeability of parts is expressed by No1~6 as shown in the table below.

#### <Interchangeability>

	<u> </u>
1	Interchangeable.
2	Current type can be used in place of new type. New type cannot be used in place of current type.
3	Current type cannot be used in place of new type. New type can be used in place of current type.
4	Not interchangeable.
5	Interchangeable if replaced with same types of releted parts in use.
6	Others.

• New & Addition, Change, Abolition, and Quantity change are expressed with the marks shown in the table below.
